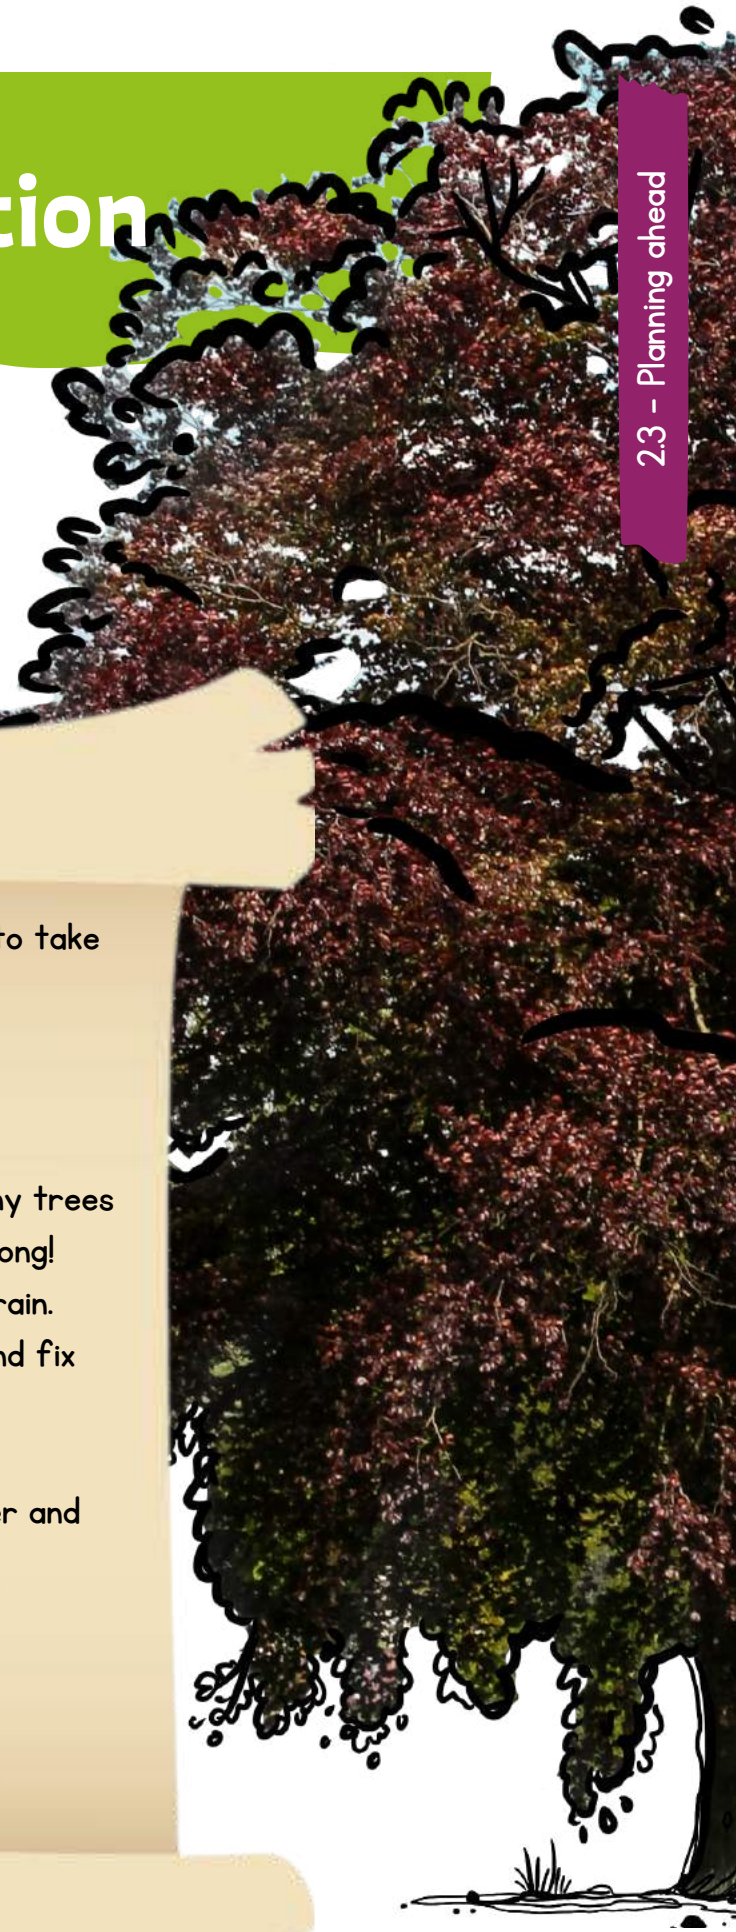
Tree declaration

As a tree planter, you hold the key to giving trees the love and care they need to thrive.

Read and sign this declaration and remember it as you watch your trees grow.



I, _____ , promise to take care of the trees I have planted.

I will:

Tell people where they are so they won't accidentally hurt them.

Remove weeds for the first 2-3 years so my trees will get enough water and food to grow strong!

Water them if there's a long time without rain.

Check their guards aren't damaging them and fix them right away if they need it.

Watch out for pests and protect my trees.

I promise to be a responsible tree caretaker and help my trees grow happy and healthy!

Signed: _____
