

Parts of a tree

Look at the tree diagram below and label the different parts - the words to use are on the right.

roots

trunk

flowers

leaves

seeds

3.1 - How trees make seeds

Four sets of horizontal dashed lines for writing labels.

Match the functions below with the correct parts of the tree from the list provided.

Functions:

- A. Anchors the tree to the soil and absorbs water and nutrients
- B. Produces energy for the tree
- C. Produces new trees
- D. Supports the structure of the tree and contains water and nutrient transport systems
- E. Attracts pollinating insects
